To Whom It May Concern:

WebDev Technologies, Ltd recently built two new websites for my timeshare resale business.

Working with my schedule, WebDev Technologies completed the entire project in a timely manner and actually finished up ahead of the projected completion date. Their bid for the project was far below all others I received and at a price that fit into my budget.

The professional staff was quick to respond to my emails and made all improvements and changes I requested quickly and efficiently.

I would highly recommend WebDev Technologies, Ltd. for any website requirements. In addition, I plan to use them for any and all future projects my business may require which are web related.

You may contact me directly at 1.800.775.4493 or syed@advantagevacation.com for any further information regarding WebDev Technologies.

Sincerely,

Syed Sarmad
